**PHOLC IS A SWEDISH BRAND FOUNDED IN 2015**

Pholc stands for a timeless and updated aesthetic approach to design. They create expressions for private and public spaces that last. The brand collaborates with talented designers with a strong and independent expression, who find their inspiration in art and fashion. They create modern lighting of high quality, a good design, always based upon a search for new perspectives with a typical Scandinavian feeling. In 2018 and 2019, Pholc's creations have been selected by Vitra to decorate their booth at the Salone del Mobile in Milan. In Belgium and Luxemburg, Pholc is represented by hippOffice agency.
